A Practical Guide to Altar Ministry has been written as a concise guide to aid those who do altar ministry in the local congregation, in the areas of water baptism, baptism in the Holy Spirit, and restoration for those who have fallen away from Christ. All believers have been given a mandate to witness, preach and teach the Gospel to men and women everywhere. In fact scripture speaks of going into "the hedges and highways" to compel them to come to Jesus (Like 14:23). Altar ministry is a means whereby individuals can get an understanding of what they must do as they seek God for the salvation of their souls.

The information contained within these pages can be applied not only to the altar of the local church congregation, but to the workplace, as well as one's neighborhood or wherever believers encounter those who are seeking Christ. Within these pages you will find information on:

- What constitutes altar ministry.
- Truths about the Holy Spirit and how to assist individual in receiving the infilling of the Holy Ghost.
- How to assist with water baptism.
- How to restore individuals who have fallen away from Christ.
- How to minister with children, the unchurched and various other special needs individuals.

What is also helpful about this Manual are the handy guides listed throughout, that provide ready reference for altar ministry, and the review questions, which follow each section to gauge ones comprehension of the material, presented.

This Manual was written with you, the altar minister in mind, and includes resource materials for further study in the spiritual discipline of fasting, as well as deliverance. Be blessed as you read through the pages of, *A Practical Guide for Altar Ministry*.

Pamela is available for Book Signings, Speaking Engagements and workshops.
